

# Aoraki

## TF-BQ-AOR

*Architectural steel-frame banquette with industrial elegance*

## DESCRIPTION

The Aoraki brings architectural elegance to commercial seating. Its defining feature is the continuous 32mm tubular powder-coated steel frame that wraps around the upholstered seat and back, creating a visually striking profile from every angle. Horizontal channel tufting on the backrest adds depth and sophistication. Designed for both wall-run and freestanding mid-room placement, the Aoraki is equally impressive from the front and the rear.

## KEY FEATURES

- Exposed 32mm tubular steel frame wrapping back and sides
- Horizontal channel-tufted backrest
- Floating seat appearance within the frame
- Suitable for freestanding or wall-run configurations
- Modular seat and back squabs for easy replacement

Detail / Construction

In-Situ Application

## DIMENSIONS

Standard Module Length	1200 mm
Overall Depth	650 mm
Overall Height	850 mm
Seat Height	460 mm
Seat Depth	480 mm
Custom Length Range	800 – 2400 mm per module

## MATERIALS & CONSTRUCTION

Frame	32mm powder-coated tubular steel
Seat / Back Core	CNC-cut FSC-certified plywood
Foam	High-density commercial-grade polyurethane (CMHR)
Suspension	Elasticated webbing on plywood base

## AVAILABLE FINISHES

Frame / Base	Matte Black   Gunmetal   Satin Brass
Upholstery	Customer-supplied or Titan-recommended commercial fabrics, velvets, or aniline leather

**Compliance:** Manufactured to meet AS/NZS 4688 (Fixed Seating) requirements. All foams are CMHR (Combustion Modified High Resilience) rated. Timber sourced from FSC-certified suppliers where applicable.

**Warranty:** 5-year structural warranty on frame and base. 2-year warranty on upholstery and foam under normal commercial use. Excludes customer-supplied fabrics.

**Lead Time:** Standard finishes: 6–8 weeks from order confirmation. Custom finishes or lengths: 8–10 weeks. Rush orders available on request.
