

SOFT SEATING

Basin Sofa

TF-SS-BSN

A slim-profile two-seater sofa that brings premium leather lounge seating to commercial environments without the visual bulk. The Basin's matte black steel frame creates a floating effect — the tan camel leather seat and back appear to hover above the ground on minimal legs. Ideal for boutique hotel bars, premium restaurant waiting areas, and high-end office lounges. The slim silhouette works in tight spaces where a traditional sofa would overwhelm. Available in leather and premium fabric options.
