

Kauri

TF-BQ-KAU

Diamond-tufted leather banquette on a floating steel plinth

DESCRIPTION

The Kauri is a robust and highly adaptable modular banquette system. Its clean, block-like upholstered form sits on a minimal recessed steel plinth, creating a distinctive floating effect. The hand-finished diamond-tufted backrest adds a touch of traditional luxury to an otherwise highly modern silhouette. With a deep, comfortable seat profile and fully customisable lengths and corner configurations, the Kauri is engineered for premium hospitality fit-outs.

KEY FEATURES

- Hand-finished diamond-tufted backrest
- Recessed 50mm folded steel plinth (floating effect)
- Deep, comfortable seat profile
- Fully modular: straight, corner, and curved options
- Bar-height variant available (seat at 700mm)

Detail / Construction

In-Situ Application

DIMENSIONS

Standard Module Length	1200 mm
Overall Depth	660 mm
Overall Height	900 mm
Seat Height	470 mm
Seat Depth	490 mm
Custom Length Range	Fully customisable lengths and radii

MATERIALS & CONSTRUCTION

Base	50mm folded steel plinth, powder-coated
Frame	Heavy-duty commercial plywood and pine
Tufting	Hand-finished diamond tufting, commercial-grade thread
Foam	Dual-layer high-density foam (CMHR)

AVAILABLE FINISHES

Frame / Base	Matte Black White powder coat
Upholstery	Best suited to supple leathers, high-quality vinyls, or textured fabrics.

Compliance: Manufactured to meet AS/NZS 4688 (Fixed Seating) requirements. All foams are CMHR (Combustion Modified High Resilience) rated. Timber sourced from FSC-certified suppliers where applicable.

Warranty: 5-year structural warranty on frame and base. 2-year warranty on upholstery and foam under normal commercial use. Excludes customer-supplied fabrics.

Lead Time: Standard finishes: 6–8 weeks from order confirmation. Custom finishes or lengths: 8–10 weeks. Rush orders available on request.
